

PRAKASH MANNA

Software Developer

+91-7008624072 | prakashmanna33@gmail.com | linkedin.com/in/prakashmanna

Summary

Full Stack Java Developer skilled in Core Java, Spring Boot, RESTful APIs, MySQL, and React.js. Experienced in building responsive web applications, familiar with AWS (EC2, S3, IAM) and secure file handling using ClamAV. Currently exploring microservices and Kafka while strengthening problem-solving skills on LeetCode.

Skills

Programming & Core: Core Java (OOP, Collections, Exception Handling, Multithreading), JavaScript, SQL

Backend Development: Spring Boot, RESTful APIs, Hibernate/JPA, Microservices (basic), Kafka (basic)

Frontend Development: React.js, HTML5, CSS3, Bootstrap

Database Management: MySQL, PostgreSQL, HeidiSQL

Cloud & DevOps: AWS (S3, EC2, IAM), Docker (ClamAV), RabbitMQ (learning)

Tools & Version Control: Git, GitHub, GitLab, Maven, Postman, Swagger

IDEs & OS: Eclipse, IntelliJ IDEA, Spring Tool Suite (STS), VS Code, Windows, Linux

Projects

E-commerce Website

- Developed a front-end e-commerce website using **React.js, JavaScript, HTML, CSS, and Bootstrap**.
- Implemented product browsing, category filtering, cart management, and checkout UI with responsive design.
- Tech Stack:** React.js, JavaScript, HTML, CSS, Bootstrap.

SecureDocUploader

Developed a Spring Boot application for secure document upload, validation, and cloud storage.

- Built **REST APIs** for uploading PDF and text (TXT) files with validation.
- Integrated **ClamAV (via Docker)** to scan files for security threats.
- Implemented structured storage on **AWS S3** with secure download functionality.
- Added text extraction from uploaded files and provided results via API.
- Tech Stack:** Java, Spring Boot, Docker (ClamAV), AWS S3, Postman/Swagger UI, Git.

ESOP Management System – Microservices Architecture

Built microservices with asynchronous communication as a hands-on project.

- Designed Grant Service (**Producer**) and Allocation Service (**Consumer**) using Spring Boot.
- Integrated Kafka messaging for asynchronous communication.
- Managed MySQL database using Spring Data JPA for CRUD operations.
- Used **Eureka Server** for service discovery and communication.
- Tech Stack:** Java, Spring Boot, Kafka, Eureka, MySQL, Postman/Swagger UI, Git.

Education

B.Tech in Civil Engineering

Indira Gandhi Institute of Technology, Odisha — 2018–2022

- CGPA: **7.73**

Achievements & Highlights

- Built 3+ real-world projects using **Spring Boot, React.js, MySQL, AWS S3, and Kafka**, including an e-commerce website and a secure document uploader.
- Developing a **Customer Experience Management (CEM)** system using Spring Boot (backend), React.js (frontend), and MySQL.
- Certified **Full Stack Java Developer** from JSpiders.
- Familiar with **AWS deployment (EC2, S3, IAM)** and DevOps tools (**Docker, Kafka, RabbitMQ**).

Languages & Interests

Languages: English, Hindi, Odia, Bengali | **Interests:** Gaming, Exploring, Self-Improvement
